December 2023

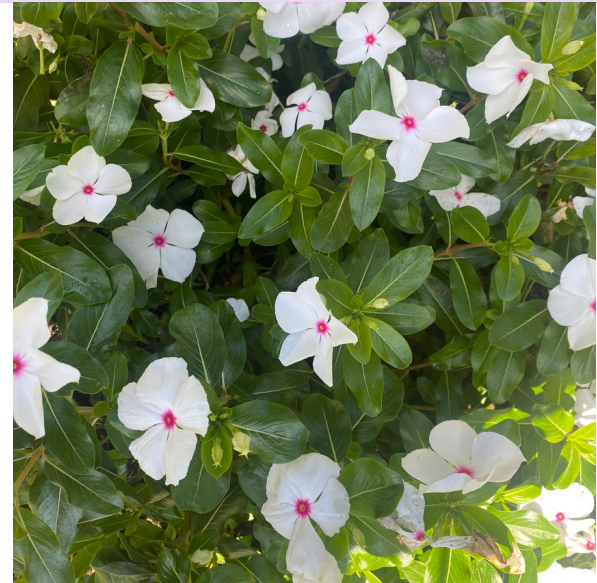

Tarot Card of the Month

Nine of Wands - Very fitting for the last month of the year that we get the card of we're almost there! It's the final push before the end, when you gather what energy you have left and go for it. Nine of Wands asks us to dig deep into our resiliency, there's things still to be done but you've almost accomplished your goal and you can start to see that end in sight. Final stretch kind of vibes, so keep going, we're almost there ... and almost to 2024!

Cancer Full Moon

This Full Moon is at 4 degrees Cancer on Tuesday, November 26th at 6:32PM. The Moon in Cancer will be sextile to Jupiter in Taurus while the Sun in Capricorn trines Jupiter. Also on this day we'll have Mercury square Neptune while in a conjunction with Mars. The easier aspects with Jupiter help us to navigate the tougher placement of Mars/Mercury. We're likely to not be seeing the full picture clearly of what's happening and react in an outsized way with the Mars/Mercury part. This could be escapism and idealism or could be an interaction where you don't see all the details. Jupiter comes in to help us see what the benefit could be of the situation, how we can use this information or decision to propel us forward with our goals and especially with the Moon in Cancer, how we feel about that trajectory and the possibilities.

December Transits
