Tarot Card of the Month

Page of Pentacles reversed - With both the Venus retrograde and Capricorn Full Moon, the Page of Pentacles vibe is of assessing our resources, our money, our time and energy so that we're clear on what's working for us and what needs to be adjusted. The pages are often beginning endeavors or learning new skills and this feels like we're unlearning habits so that we get the fresh start we deserve. Pay attention to how you budget, how you schedule, how you balance your work, and what routines need a little honing so that you're able to let go of what's just not working well for you anymore.

Capricorn Full Moon

This Full Moon at 11 degrees Capricorn is at 6:39 AM CST on July 3rd. The Sun is conjunct Mercury in Cancer and the Moon is in a trine to Jupiter and a sextile to Saturn. Saturn and Capricorn are about responsibility, hard work, and what we build for the long haul, with Saturn retrograde and the Sun and Mercury in nostalgic Cancer we're reviewing the past and how we feel about where we are now. The moon's trine to Jupiter in Taurus is helping us release the expectations and outdated ways of navigating the structures and routines of our lives. Jupiter wants to make the most of every resource in Taurus, Saturn and Capricorn are pointing to the ways we can show up more responsibly and committed to those big Jupiter goals. The Sun and Mercury in Cancer are encouraging us to be vulnerable in acknowledging that we're releasing old habits, we're releasing limiting beliefs, and we're making room for an even more fulfilling version of the goals you're working towards.
