Modern Witch Tarot Deck

Tarot Card of the Month

Four of Wands - A card of celebration, of seeing that things are happening around you and there's cause for gratitude. NGL the beginning of May is still rocky, with the eclipse, with Mercury retrograde, we're reviewing where we are and where we're going. The absolute best approach you can take during this review is to acknowledge the abundance and support you have around you. Four of Wands is a card that shows a party, a moment of yay, so even if you're not feeling that yay outwardly, is there a way you can find gratitude for the support and people around you in this month?

Scorpio Full Moon

This Full Moon at 14 degrees Scorpio is a lunar eclipse and the last eclipse in Scorpio closing out the 18 month cycle. It's a final release point for what you've been shedding when it comes to the Scorpio part of your chart. It's also happening with the Sun in between Mercury and Uranus in Taurus. This is a big moment of releasing relationships, a job, habits, and limiting beliefs that have not served you well for quite some time. You've likely made strides in this over the last year and a half but with Mercury and Uranus involved with the Sun it's like there's one final "hey are you sure you're ready" moment. As Mercury is currently retrograde it'll be a time of reflecting on how far you've come and where you're headed next. Uranus' presence gives you a boost of rebellion that helps you shake off the status quo and finally get free from what needs to be released.
